Identification of the “unknown supplier” in the event of a transfer	7.971	19%
<b>Total</b>	<b>42.044</b>	<b>100%</b>

*\*) Special information procedures allow final customers in the energy sectors to obtain specific information encoded in centralised databases (Integrated Information System, Indemnity System) accessible from the Help Desk and subject to specific regulation by ARERA. At the final customer’s request, the Help Desk, through these procedures, may provide: the name of the commercial counterparty of the contract for which it is intended to request the transfer, the name of the current commercial counterparty with the date of switching and, with regard to the CMOR, the name of the supplier that requested the application of that charge, the minimum contents of the claim provided for by the regulation and the information regarding the possible state of suspension or cancellation of the compensation.*

2025 - Special Settlement Procedures		
Topic	n.	% vs tot.
Social Bonus	10.960	80%
C <sup>MOR</sup>	2.591	19%
Double invoicing	128	1%
<b>Total</b>	<b>13.679</b>	<b>100%</b>

*\*) Special solution procedures are applied for specific types of problems in the energy sectors, for the solution of which, at the final customer's request, the Help Desk can access codified information in centralised databases (as is the case for special information procedures) and, where appropriate, also send special requests for information to the operators involved. In particular, final customer issues related to the social bonus and CMOR are handled through these procedures.*
