

REMIT — Notification to ARERA and ACER for the protection of European Energy markets against market manipulation

11 July 2025

Notification to ARERA and ACER according to Article 9 of Regulation (EU) No 1227/2011, as amended by Regulation (EU) No 2024/1106, for the reinforcement of the protection against market manipulation on European wholesale energy markets.

Regulation (EU) No 2024/1106 of the European Parliament and Council of 11 April 2024 amending Regulations (EU) No 1227/2011 and (EU) 2019/942¹ entered into force on 7 May 2024. If not explicitly indicated, hereinafter “REMIT Regulation” refers to the consolidated version of Regulation No 1227/2011 as amended by Regulation No 2024/1106.

Some of the provisions introduced by Regulation 2024/1106 became effective as of the aforementioned date, while other provisions became effective on subsequent dates. In particular, on November the 8th the obligation pursuant Article 9.1, for market participants established or resident in a third country to designate a representative, became effective.

With the publication of an [Open Letter](#) on the 16th of April 2024, ACER indicated that market participants are expected to comply with the obligation established by Article 9.1 by means of the European Register of market participants (CEREMP) and, in a subsequent [Open Letter](#) published on September 25, provided further indication for the notification via CEREMP.

Given that ARERA established and manages a national REMIT Register (in connection with CEREMP) - as indicated in the [Public Statement](#) of November the 7th 2024 – market participants registered in Italy and subject to the obligation of Article 9.1 are requested to fulfil their notification obligation directly via the national REMIT Register managed by ARERA, in the dedicated section of data related to market participant (“dati anagrafici”), following the indications provided in the REMIT Register User manual, available at the following [link](#).

Market participants who already notified their representative according to the indication provided in the mentioned Public Statement, are requested as well to make the notification also via the national REMIT Register.

Lastly, as indicated in the ACER Open Letter of April the 16th, for market participants registered in Italy, the notification via the national REMIT Register is considered as effective notification also to ACER.
